Subject: July FishHawk Report

During the period of July 01, 2011 to July 12, 2011 the following horticultural treatments were applied to the common grounds of FishHawk:

- Systemic insecticide treatment was applied to all St. Augustine turf areas as needed to control Chinch Bugs.
- Bermuda Turf areas located in Palmetto Club, Park Square and Osprey Club were treated with granular fertilizer and post emergent herbicide.
- Deep Root and drench fungicide treatment was applied to Med Jool Palms located at Palmetto Club. Two of these Palms are now dead.
- Shrubs and trees were treated with systemic fungicide and insecticide as needed.
- All Magnolia Trees located in common grounds were treated with systemic insecticide to control Scale infestation and Sooty Mold.
